ABOUT THE ARTIST

A I am a collector of memories. What makes me pick up my art brushes is the desire to bring an inspiring image back to life and save it forever on to the canvas. With my artwork, I prefer to focus the vibrancy of everyday life. I am most inspired by the diversity of cultures, landscapes and biodiversity. My work incorporates a variety of materials and styles to create artworks that range from still life, florals, landscapes, and figurative done as sketches, abstract, representational or even realism.

In my artwork, I choose to celebrate the beauty, hope and imagination. My work is an effort to reflect and honor my living experience with color, the lighter, deeper, and more positive side of the human experience.

SPOTLIGHT

Arika Kumar

Eclectic and proud of it! While my life demands left-brain productivity, my right brain always seeks expression. I am a business consultant by day and an artist by heart. Art allows me the freedom to dissolve all borders, and explore with my imagination. So as a citizen of the earth and an amazing universe, I have made it my mission to gather world colors through my art. As an artist, I choose to give expression to my creativity by incorporating a variety of styles and mediums with a focus on color.

Arika earned an MBA from Arizona State University; and a Master of International Business from Thunderbird School of Global Management.
